

# Preschool Activities July 14th—July 18th Under the Sea

Books we will Read  
Life in the Sea  
Rainbow Fish

## Special Events

Construct a big  
whale  
Fishing for num-  
bers

### Memo To Parents:

Our preschoolers have shown an interest in learning about aquatic life.

We have several books to read and pictures to look at. They will finger paint the ocean to prepare the lay out for a colorful array of fish and other creatures. They will create their fish and sea life by using a variety of art materials including paint, foil and colored stickers. They will weigh, measure and pour polished stones and water. They will also work together on some water spray art. We hope this will be interesting and fun for all of our preschoolers.

Shari, Keon, Delois and Pat
