When Interpreting this Fee Schedule:

- Fees will be assessed on all studies supported by for-profit sponsored and/or agencies that do not otherwise cover IRB fees through indirect costs to the institution or other mechanism and contractually allow for processing of IRB fees.
- The IRB will not charge for Single Patient Treatment Use of Investigational Products, Emergency Use of Investigational Products, or review of Compassionate Use protocol.
- Research conducted at CU, regardless of funding or regulatory status (all research, funded or not, irrespective of funding source; FDA-regulated or Common Rule), is subject to for-cause audit by the Research Compliance Auditor as determined by the full Board that a for-cause audit is warranted. The cost of for-cause audits will begin at \$1,000 per study.
