Sponsored Programs Bulletin: December 16, 2021

Grants Accounting recently consolidated several account codes, which has led to some changes in InfoEd budgets. When you go to add account codes, you may notice something like this:

For every code that was consolidated, Sponsored Programs Administration has supplied the code you should use instead. Please follow these instructions and don't use the old code.

If you receive an award for a grant submitted through InfoEd and there's a retired code in the budget, Sponsored Programs Administration will let you know that it needs to be updated. Either your administrator or [Sponsored Programs Administration](#) can make the change before the budget is sent to Grants Accounting to assign a new fund number.

UPCOMING WEBINAR:

On January 13 at 9 AM CT, Sponsored Programs Administration will present a webinar for faculty and department/school administrators entitled "Submitting an NIH Proposal: Changes and Other Things You Need to Know." Please join us at <https://creighton.zoom.us/j/91761360885>. We'll discuss required changes to the biosketch, adding personnel, adding subawards, and other NIH-specific issues. We look forward to seeing you!
